PRIMA

Available in 500g, 1 kg, 5kg, 10kg, 20kg, 30kg & 50kg

OUR PRODUCTS

WOODCOL AP+

- Superior and unmatched bonding strength.
- Heat-resistant and water-resistant properties.
- Simple and user-friendly application.
- Provides extensive coverage.
- Cost-effective over time.
- Adaptable to all weather conditions.

WOODCOL HYDRO+

- Sets in just 5 hours. Effortless to spread. Stays water-resistant for up to 5 days. Resists boiling water for up to 5 hours.

WOODCOL ELITE

- Saves time effectively.
- Top-tier water resistance.
- Minimizes bubble formation significantly.
- Sets quickly, within 2 hours.
- Rapid tack development, achieving a strong grip in just 6 to 8 seconds.
- Delivers great coverage.

OUR PRODUCTS

WOODCOL PVC GRIP

- Excellent heat resistance. Adapts well to varying climate conditions.
- Provides a strong and lasting
- Highly compatible with PVC and acrylic materials.

WOODCOL WXR+

- Simple application using a spreader or roller glue applicator.
- Can be upgraded to D4 grade by adding 5% hardener.
- Sets in 5 minutes with a hot press and 3 hours with a cold press.

WOODCOL PRIMA 8

- Exceptional bonding and heat resistance.
- Ideal for all mechanized lamination processes, including hot press, cold press and roller press.
- Non-hazardous, solvent-free, and non-flammable formula, offering excellent flow and spreadability in the D2 category for enhanced coverage.

WOODCOL PRIMA

- Eco friendly adhesive. Superior bond strength. Super flow and coverage for cold press.

⚙️ HOT MELT ADHESIVE

TURBOMELT®

Turbomelt represents cutting-edge technology in hot melt adhesives, expertly crafted for the modular industry. It offers exceptional bonding strength while ensuring clean machine operation and safe processing across a variety of equipment. This advanced adhesive solution is designed to meet the rigorous demands of modern manufacturing.

OUR PRODUCTS

ASTRA's Premium Hot Melt Adhesive Solutions for Edge Banding Machines!

Welcome to ASTRA, your trusted partner for top-tier Hot Melt Adhesive Solutions designed specifically for Manual and Through-feed Edge Banding Machines. With years of expertise in Adhesive technology, we proudly deliver products known for their superior bonding performance, efficiency, and versatility.

SUPERIOR QUALITY AND BONDING

For Manual Edge Banding Machines:

Our specially formulated Hot Melt Adhesives meet the demands of manual edge banding. With best heat resistance and rapid setting, they ensure a seamless bond and durable, aesthetically pleasing edge finishes.

For Through-feed Edge Banding Machines:

Engineered for high-speed and precision applications, our Hot Melt Adhesives offer balanced viscosity and advanced thermal stability, ensuring consistent application and strong bonding, even in tough production environments.

OUR PRODUCTS

Why Choose **TURBOMELT®**?

Tailored Formulations:

We customize our Adhesives to meet the specific needs of your edge banding machines, ensuring optimal performance and efficiency.

Reliability:

Our Adhesives provide strong, long-lasting bonds, eliminating the worry of delamination and delivering flawless, durable edge finishes every time.

Efficiency:

Designed for rapid setting, our Adhesives help minimize production time and maximize efficiency, keeping your operation.

Innovation:

We stay ahead of industry advancements, continuously refining our products to meet the latest demands in Adhesive technology.
